

## Top Clean TREND® for Normal Load

We recommend durable rubber profiles with anti-slip features, alternating with scraper bars and cassette brushes, as an efficient cleaning concept for outside areas. This Top Clean TREND® version is particularly weather-resistant and non-corrosive. Dirt and moisture are collected outside the building. Scraper Bars installed between the profiles increase the cleaning effect even more. Sound-absorbing, dimensionally stable, rollable and easy to clean. Available in any width and length. Special shapes at extra charge.
